

## **TASK DESCRIPTION: 05.02.06 Final Iteration**

**Deadline:** The link must be uploaded to FRONTER by **21/09/17 @ 23:59**

**Folder:** 05.02.06: Final Iteration

**Format:** URL link

**Feedback:** Oral feedback (22/09/17), students write notes on FRONTER (22/09/17)

1. The requirement is for you to upload a link but, on the day, we will expect you to present your final iteration and also the journey you took to get there.
2. Our recommendation is to start with an 'executive summary'. Within this context, that would mean that you present the highlights of your solution and explain how it addresses the needs of your target audience.
3. After that, you can discuss the influence on your choices that were made by:
  - a. your original communication plan
  - b. your development process
  - c. your development iterations
  - d. the user tests.
4. To help you do this, you can either:
  - a. show you online process documentation
  - b. make a slide presentation
  - c. do a combination of these things and any other relevant alternatives.
5. We expect your presentation to be about 10 minutes long. After that time, we will start the discussion and ask questions about the aspects that you found challenging or rewarding.
6. All group members are expected to participate in the presentation. Students that do not attend the final presentation will be registered as absent in the meeting notes.
